

Mohamad Omar Aboghalon

Aspiring Software Developer

📍 Cairo, Egypt 📞 +201505383247 ✉ mo.aboghalon@gmail.com 💼 LinkedIn 🐙 GitHub 🌐 Portfolio

Professional Summary

Computer Science student passionate about software development and technology. Skilled in Python, Java, C++, and web development, with experience building academic and personal projects. Fast learner with strong problem-solving and communication skills.

Education

Bachelor's Degree in Computer Science

Modern University For Technology & Information

Cairo, Egypt, Sep 2023 - Jun 2027

GPA: 3.00/4

Bachelor's Degree in Civil Engineering (Incomplete)

University of Garden City

Khartoum, Sudan, Jan 2022 - Jun 2023

Skills

- Python, Java, C++, JavaScript
- HTML, CSS, SQL
- OOP, Problem Solving
- GitHub, VS Code
- Microsoft Office, AI Tools
- Fast Learner, Effective Communication

Projects

Metro Passenger Display System

- Developed a metro passenger information display system using Python and Tkinter.
- Designed a graphical user interface to simulate real-time metro station screens.
- Implemented dynamic passenger and station display features.
- Technologies: Python, Tkinter

Numerical Analysis Solver Website

- Built a website for solving numerical analysis equations and approximation methods.
- Implemented algorithms such as Bisection Method and Newton-Raphson Method.
- Technologies: HTML, CSS, JavaScript

Simple BMI Calculator

- Developed a responsive BMI calculator website for calculating Body Mass Index based on user input.
- Designed a clean and user-friendly interface with real-time result display.
- Technologies: HTML, CSS, JavaScript

Certifications

- Python programming basics - MaharaTech
- HCIA-AI v4.0 - Huawei ICT Academy
- German A1 - Busuu
- Introduction to Flutter - Simplilearn

Languages

- Arabic - Native
- English - Upper Intermediate
- German - Beginner

Hobbies

- Tech Events
- Tech Content
- Astronomy
- PC Hardware
